DOUBLE POWER PLANT TO BE SHORT LINE SYSTEM MAY BE CONSTRUCTED.

Point In the Great Cripple Creek | Line and O. R. & N. and Operate District of Colorado-Salt Lake Electrical Expert Left For Scens of His Labors Last Night.

R. M. Jones, the electrical and civil engineer who presides over the desti-nies of the Jordan Narrows power plant. Union Pacific are holding an executive, this district that will interest merchants recently released from his contract of consolidating the system by a closer day. Edward W. Cason, who has had

a month's trip to San Francisco, where with the assistance of a large corps of draughtsmen, he has been preparing plans for the work in hand with the utmost dispatch and he was so busy getting ready to leave for Colorado yesterday that he scarcely had time to tell what he was going to do.

# Left Last Night.

He left on last night's east bound train and will return again on his way back to 'Frisco about a week hence.

Mr. Jones said that for special reasons he could not say just where the big plant was to be located, nor who composed the company which had undertaken the work, but there were features concerning it which would be of interest and those he did not mind mentioning.

In the first place, the great dam In the first place, the great dam which will confine the water for power purposes, is the first of its kind ever constructed. It will be built entirely of steel and erected on absolutely new principles. At the place selected for the dam the earth has been excavated to bedrock clear across the canyon and into the rugged hillsides at the extremities of the cut.

Mich. Sheet of Steel

High Sheet of Steel.

Into this will be embedded and anchored a sheet of steel, so to speak, seventy feet high and 285 feet long. This big sheet steel barrier will be elliptical in form with the concave side facing up-stream or against the pressure of the water. From the sides of this monster sheet steel rods will be attached and run out at equal distances from top to bottom and from one end to the other and firmly anchored in to the other and firmly anchored in the bedrock underlying the great lake which the dam will form. The whole structure, Mr. Jones says, having been figured out on a safety factor of two

The visit of the Short Line officials to Uvada has given birth to the rumor that active work on the extension of the Utah & Pacific to Los Angeles is being seriously considered. There is no immediate prospect of that, however, as there are some legislative difficulties to be encountered in Nevada that at present appear inimicable to railroad construction in that part of the state that the Utah & Pacific would operate in if the projected route were adhered to. Further developments following the inspection tours of the presidents of the Short Line and Utah & Pacific are expected. in One Per Cent In Preferred Stock

womanly way, as she ought to be there would be no danger and little pain.

The time of parturition is made comfortable and safe by the use of Dr. Pierce's Favorite Prescription. It is a medicine designed by a skilled physician —a specialist in the disorders and disanly system into perfect, vigorous health any system may perfect against involved in baby's advent and makes them strong, healthful and flexible. Taken during the whole period of gestation it insures the perfect health of both mother and

child.

Mrs. Mollie E. Grimes, of Flomaton, Escambia Co., Ala., writes: "I have taken three bottles of your 'Favorite Prescription' and one bottle of your little 'Fellets' and oh, what an appetite they did give me. My baby is now three minths old and weighs fifteen pounds and a half. When she was born she was the fatiest little baby girl you ever saw. She was the largest one of all my babies and at the birth I had an easier and shorter time than I ever bad. I am stouter and healther than I ever was. I never will be without your medicine. May God bless you and your good medicines."

Pleasant Pellets are the most perfect medicine ever devised. They give prompt, comfortable, permanent relief.

MANAGER CUTLER RETURNS FROM THE EAST.

Bought Machinery For the Springville Plant-Growth of the Industry In the East.

Manager Thomas R. Cutler has returned from his business trip east, ery to be used in the auxiliary factory of the Utah sugar factory, now in course of erection at Springville. He expects the machinery to be delivered and put in working order by Oct. Is. Advices from Utah county to Mr. Cutler are to the effect that the beet crop is in a most satisfactory condition. Digging will commence at once, and the Lehi factory will be started up for the season in about another week. Advancing prices on iron Mr. Cutler found to be the rule in the east, and all factories are running at full capatille.

all factories are running at full capa-city, and orders for best sugar making city, and orders for beet sugar making machinery are greatly delayed. In Michigan alone nine sugar factories are building. Nebraska, Illinois and Washingten will build one each this fall and California will have three more. Mr. Cutler regards the beet sugar industry in Utah particularly encouraging.

The strife between the sugar trust and Arbuckle, Manager Cutler reports to be at fever heat in the east, but on account of transportation question and the limited market out in this par-

# of the west, he predicts no material change in local prices. SUB-CONTRACTOR OUIT.
